

INSPIRED YOUTH

2023-24 TUTORING PROGRAM

PROGRAM RESULTS

Tutees rated their skills in a variety of areas. At the end of the program year, students reported the following results:

- 15% increase in reading skills
- 9.5% increase in writing skills
- 11% increase in math skills
- 29% increase in science skills

After a full tutoring year, twice as many students reported feeling able to complete their homework on their own.

93% of tutees said that tutoring was helpful for them.

100% of tutees said that they enjoyed tutoring.

VOLUNTEER TESTIMONIALS

“I would volunteer again because it helps me develop my interpersonal skills and it feels great knowing that I can change someone else's life for the better.”

“My favorite experience was actually tutoring two students in the same grade level at the same time. We worked on a writing assignment (brainstorming) and it was so fun to watch them meet each other, talk, and share experiences and interests from school.”
